

🔗 Professional Experience

13+ Years of experience in designing, developing, implementing and testing software applications in Java, J2EE technologies

3+ years of experience in leading and managing projects in product development environment using waterfall and agile methodologies

✂ Skills

- * S/W Development
- * Java & J2EE
- * Design, UML
- * Scala
- * Angular
- * Microservices
- * RESTful Services
- * AWS
- * Docker
- * Kafka
- * Redis, Terracotta
- * Jenkins
- * MySQL, Oracle
- * JSP & Servlet
- * JSF, Ajax
- * Adobe Flex
- * Hibernate
- * Spring
- * JBoss Seam & jBPM
- * Groovy & Grails
- * JBoss & Tomcat
- * JUnit, TestNG, JMockit
- * Agile
- * Project Management
- * Eclipse, IntelliJ IDEs
- * Git, TFS, SVN, CVS, Mercurial, VSS
- * Ant, Maven, Ivy
- * Load Runner, Soap UI
- * Cross Browser
- * Multi-Tenancy & Multi-Lingual
- * Security Testing
- * Leading Teams

🏠 Education

Bachelors - Electronics & Communication Engineering
JNTU, Hyderabad, India

🏆 Experience

Senior Software Engineer

Capital One November 2015 - Present

- * Implemented External SwiftID APIs
- * Supported clients for DSD API Integration
- * Designed and Implemented CI-Self Service and CI Dashboard Portals
- * Implemented DMS Listener
- * Designed and Implemented Eno Registration Web & APIs
- * Implemented Cache for Eno (using Redis)
- * Implementing use cases for Eno
- * Implemented GitFlow for Watchmen Team (DSD) & DMS Listener
- * Created CI/CD Jobs for Watchmen Team & DMS Listener
- * Maintained AWS stacks for Watchmen Team
- * Implementing CI/CD pipeline jobs for Eno

Software Architect

Gemalto Inc November 2013 - October 2015

- * Defined and Implemented Unit testing, code coverage and Java docs and have them as part of build process
- * Responsible for 3rd party libraries and maintainance
- * Implementation of MQTT messaging
- * Implementation of batch process using Spring Batch
- * Merging of services and migrating from SVN to Mercurial
- * Performance tuning/testing (identifying the profiling tool; complete POC on different profiling tools and get the approval for budget presenting the advantages of selected profiling tool)

Technical Lead

IBM November 2004 - October 2013

- 2x Compensation; 2x Perform, 2x Admin, Career Tracker, Recruiting Center, Career Center
- * Architected, designed, led and developed the 2xCompensation
- * Designed and developed the custom Flex Advanced data grid
- * Enhanced the home built Field and Page frameworks to support Performance Appraisal module
- * Developed custom components in JSF using JFree Charts
- * Implemented Generic JSP to reduce the creation of JSP pages in the application
- * Created performance scripts using Load Runner Tool
- * Point of contact for all external teams such as, DB, UX, SCM, Product Management
- * Managed a team of 11 including 3 QA
- * Responsible for managing the user story estimations, allocation and tracking

★ Awards & Achievements

- * Tech Excellence for Eno - Q1 2017 (Capital One)
- * Mustache Award - Q2 & Q3 2016 (Capital One)
- * Tech Excellence for External SwiftID - Q1 2016 (Capital One)
- * Awarded 'Responsiveness' in Q2 2011 (IBM)
- * Awarded 'Mutual Learning' in Q3 2009 (IBM)
- * Awarded 'Leadership Initiative' Award in Q1 2008 (IBM)
- * Awarded 'Best Individual Performance' in Q4 2006 (IBM)
- * Awarded 'Best Innovation' in Q2 2006 (IBM)
- * 'Best Team' award for KCT in Q2 2005 (IBM)
